

## Langwarrin CC

### Safe Transport Initiative

**M**edia campaigns highlighting the dangers of driving while under the influence of alcohol were the catalyst for Langwarrin CC to implement a shuttle bus service to and from the Club on Saturday nights.

John Zarb, Club President says “You pick up a newspaper, hear it on radio and watch it on television. The message against drink driving is constantly in your face. We have an obligation not only to our members but the local community.”

The shuttle bus operates every Saturday night between 7pm and 12 midnight, picking up and dropping off members to and from the Club for a nominal fee of \$2.

The benefits to accrue from the initiative include:

- Increased safety of members
- Improved attendance of Club members at social functions
- Increased exposure of the Club within the community through positive publicity.
