

CRICKET VICTORIA | COVID-19 RETURN TO TRAIN & PLAY SWEAT AND/OR SALIVA ON THE BALL PLAYING CONDITIONS

**These playing conditions have been developed by Cricket Australia and endorsed by Cricket Victoria.*

PLAYING CONDITIONS RATIONALE

The following Playing Conditions and Enforcement Options have been developed to equip governing bodies and match day officials, with a guidance framework on how to handle incidences where saliva and/or sweat has been placed on the ball. Whilst this guide provides steps for implementation during the match, clubs and associations must also consider how they will enforce and penalise those who breach these guidelines post-match play. These decisions can be made locally, however we would encourage everyone to remember the seriousness of this pandemic and how lucky we are as a country and as a sport to be getting back to playing so soon.

These Playing Conditions and Enforcement Options are also accompanied by a Return to Play Practical Guidelines resource which provides further guidance for local Associations and Premier Cricket governing bodies on navigating a safe return to play for all participants. These guidelines are recommendations which can be directly implemented and/or adapted by local Associations and governing bodies. It should be noted that these practical guidelines have been developed to assist in a safe return to play and as a result their implementation may add additional time to matches. Local consideration needs to be given as to how best to accommodate the likely time delays resulting from ensuring playing conditions are safe for all participants, officials and volunteers.

PLAYING CONDITION A: SWEAT AND/OR SALIVA PLACED ON THE BALL

1. At no stage should any participant intentionally place sweat and/or saliva on the cricket ball for any purpose
2. The umpire(s) must monitor whether sweat and/or saliva is intentionally placed on the cricket ball for any purpose
3. The umpire(s) must not allow the match to continue during any period after which sweat and/or saliva has been deliberately placed on the cricket ball, without following the cleaning direction first

DEFINITIONS

Intentional

When a participant, aware of the playing conditions, willfully places saliva and/or sweat on the ball for the purpose of gaining an advantage in game play.

Unintentional

When a participant accidentally places saliva and/or sweat on the ball with no underlying intention to gain advantage in game play. For example, if a fielder habitually licks his/her fingers before the ball is delivered as a matter of routine.
