

Coaching Cricketers with a Vision Impairment Questions and Answers

What is vision impairment?

A person who has vision impairment has the partial or total loss of vision.

What causes vision loss?

Vision loss can be caused by a number of different ways. A person may be born with vision loss or gradually lose their vision due to other conditions during their life. Some of the more common eye conditions include glaucoma, cataracts, age-related macular degeneration (AMD) and diabetic retinopathy.

How will vision loss affect the cricketer's ability to participate in sport?

It won't, a person with vision loss can still participate in sport, but the activity will require modifications to the rules and equipment used. For example, balls will contain bells or other audible sounds that will assist the cricketer. The cricketer may also have a guide that will assist them to compete.

If a person has a vision impairment, what benefit is it for them to play?

A person with vision impairment will have a lower level of physical fitness. This is a result of people with a vision impairment finding it difficult to move around comfortably forcing them to have a sedentary lifestyle. Therefore, participation in sport will increase the cricketer's level of fitness, coordination and balance as well as providing a reduction in social isolation and feeling welcomed and included in their local community and sporting club.

What coaching strategies can I use to include a person who has vision impairment?

- Make sure the cricketer is aware of their surroundings by verbally describing the surroundings.
- Familiarise the cricketer with the activity. Allow them to touch and feel the equipment and surrounding surfaces.
- Don't be afraid to ask the cricketer if they need help with the activity.
- Provide the cricketer with clear and concise instructions about participating in the activity.
- Be patient as a cricketer with vision impairment will take longer to master an activity.
- Make sure that you are continually communicating with the cricketer. This means addressing them as you approach and let them know that you are departing.
